

meliconi®
Audio/Video 2010

L'Azienda

Il primo fattore di successo del marchio **Meliconi** è legato ad un grande patrimonio d'idee e d'innovazione. Un'azienda che ha saputo imporsi in Italia e nel mondo con prodotti vincenti per funzionalità, stile e qualità dei materiali.

Meliconi S.p.A. nasce negli anni '60 come azienda che produce e commercializza articoli casalinghi in plastica e metallo.

Gli anni '80 segnano la grande svolta. Con l'invenzione del **GUSCIO TV**, la custodia in gomma salvatelecomando, **Meliconi** entra con successo anche nel settore degli accessori audio-video.

L'azienda amplia anno dopo anno la gamma di accessori per TV e HiFi e nel 1995, con l'introduzione dei supporti a parete della linea **SPACE SYSTEM**, il marchio **Meliconi** afferma definitivamente la propria presenza sul mercato nazionale ed internazionale.

Nel 1999, per realizzare un progetto innovativo come il **GumBody** ed entrare nel mondo dell'elettronica, **Meliconi** acquista **CME**, uno dei maggiori produttori italiani di telecomandi. Dalla collaborazione tra l'azienda che ha inventato il guscio salvatelecomando e una delle maggiori aziende produttrici di telecomandi non poteva che nascere una nuova e rivoluzionaria idea, unire in un solo prodotto due funzioni: **TELECOMANDO E PROTEZIONE.**

Idee e innovazione, ricerca e sviluppo, importanza del brand, distribuzione internazionale fanno di **Meliconi** un leader multispecialista in continua crescita capace non solo di assecondare, ma soprattutto, di anticipare e di guidare i bisogni dei consumatori.

The Company

The success of the **Meliconi** trademark is based on the great wealth of ideas and innovation. The company has built up over the years Successful both in its domestic market and worldwide, **Meliconi S.p.A.** supplies a range of functional, stylish products using quality materials.

The company was created in the sixties, manufacturing and marketing household accessories in plastic and metal.

In the eighties the company significantly diversified by creating the revolutionary **BODYGUARD**, a rubber protection for remote controls, the first step into the video Hi-Fi accessories market.

Year after year the company extended its range of video and Hi-Fi accessories, and in 1995 it launched the wall-mounted **SPACE SYSTEM** range, making **Meliconi** a household name in Italy and abroad.

In 1999 - following the acquisition of **CME**, Italy's leading remote control manufacturer – the **GUMBODY** project was born: **THE FIRST-EVER SELF-PROTECTED REMOTE CONTROL.**

Ideas, innovation, research, brand recognition and a powerful distribution network have consistently propelled **Meliconi's** growth to this day.

La Société

Le succès de la marque **MELICONI** est étroitement lié à ses idées et à ses innovations. L'entreprise a su s'imposer en Italie et dans le monde en proposant des produits de qualité, d'avant-garde et fonctionnels.

MELICONI S.p.A. est née dans les années '60 ; sa production principale étant les articles ménagers en plastique et métal commercialisés en Europe.

Les années '80 marquent un tournant décisif dans son évolution grâce à l'invention de la **TELECOQUE**, protection en caoutchouc pour télécommande. Ce nouveau produit a permis à **MELICONI** de s'introduire avec succès dans le secteur des accessoires audio / vidéo.

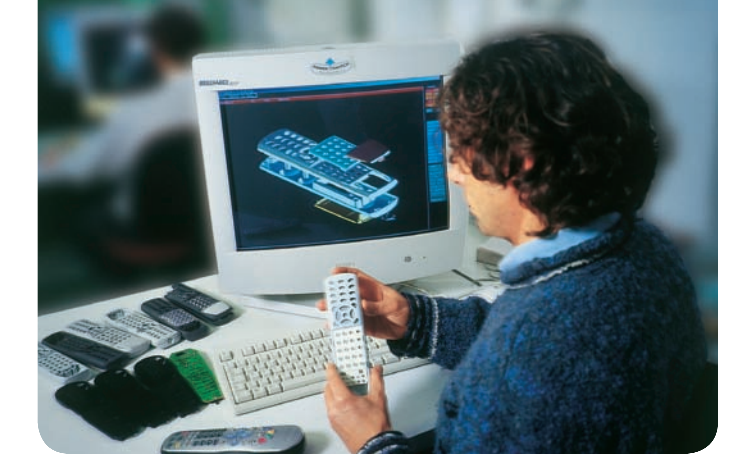

En 1995, la gamme s'enrichit avec l'arrivée des supports muraux de la ligne **SPACE SYSTEM.** Ces derniers produits consolident la présence de **MELICONI** sur les marchés nationaux et internationaux.

En 1999, pour entrer dans le monde de l'électronique grand public, **MELICONI** achète **CME**, société fondée à Milan en 1969, l'un des plus grands fabricants de télécommandes de remplacement. De cette collaboration naît un projet révolutionnaire : marier deux produits en un seul, **TELECOMMANDE + PROTECTION = GUMBODY**, la première télécommande universelle antichoc

La recherche, le développement et l'innovation, font de **MELICONI** une marque leader dans tous les secteurs de la distribution, capable de satisfaire, devancer et orienter les besoins des consommateurs.

La Empresa

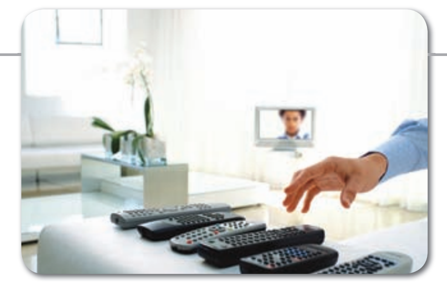

El primer factor de éxito de la marca **Meliconi** está relacionado con un gran patrimonio de ideas y de innovación. Una empresa que ha sabido imponerse en Italia y en el mundo con productos famosos por su funcionalidad, su estilo y la calidad de sus materiales.

Meliconi S.p.A. nace en los años 60 como empresa que produce y comercializa artículos de plástico y metal para el hogar. Los años 80 marcan un cambio substancial.

Con la invención de la **FUNDA TV**, la funda de goma para proteger el mando a distancia, **Meliconi** entra con éxito en el sector de los accesorios audio-vídeo. La empresa amplía año tras año su gama de accesorios para TV e HiFi y en 1995, con la introducción de los soportes de pared de la línea **SPACE SYSTEM**, la marca **Meliconi** afirma definitivamente su presencia en el mercado nacional e internacional.

En 1999, para realizar un proyecto innovador como el **GumBody** y entrar en el mundo de la electrónica, **Meliconi** adquiere **CME**, uno de los mayores productores italianos de mandos a distancia. De esta colaboración entre la empresa que ha inventado la funda de protección del mando y una de las mayores empresas productoras de mandos a distancia, sólo podía nacer una nueva y revolucionaria idea, unir en un único producto dos funciones: **MANDO A DISTANCIA Y PROTECCIÓN.**

Ideas e innovaciones, investigación y desarrollo, importancia de la marca y distribución internacional, hacen de **Meliconi** un líder multi-especialista en continuo crecimiento, capaz de satisfacer las necesidades de los consumidores y, lo que es aún más importante, de anticiparlas y guiarlas.

Telecomandi

Remote Controls | Télécommandes | Mandos a Distancia

Meliconi, i telecomandi

La prima gamma completa di telecomandi universali Meliconi predisposti per gestire più apparecchi contemporaneamente fa il suo esordio nel 2001 e, in soli due anni, diventa leader di mercato. Gumbody, il telecomando universale in gomma antiurto più venduto in Italia, segna un'importante svolta in azienda: per realizzare un'idea così innovativa, Meliconi acquista infatti CME, specializzata nella produzione di telecomandi di ricambio fin dal 1969.

La costante attività di ricerca e la scrupolosa messa a punto della produzione hanno consolidato un successo che fonda le proprie radici sulla grande tecnologia: non a caso i telecomandi Meliconi sono oggi sinonimo di qualità, affidabilità, estrema durata ed estrema facilità di utilizzo.

Meliconi, the remote controls

GUMBODY, Meliconi's range of universal remote controls operating multiple devices, made its debut in 2001: an instant success.

GUMBODY, the first self-protected remote control in the world, was born revolutionary: drawing from CME's technical skills and focusing on research and development, Meliconi remain ahead of the pack in quality, reliability and user-friendliness.

Meliconi, les télécommandes

GumBody, la première gamme de télécommandes universelles MELICONI permettant de remplacer ou de regrouper plusieurs appareils, a été lancée en 2001. Elle a atteint, en l'espace de 2 ans, la place de leader sur le marché en devenant la télécommande la plus vendue en Italie. L'acquisition de CME, société spécialisée dans la production de télécommandes de remplacement depuis 1969, a constitué un élément déterminant dans la stratégie de MELICONI qui a pu ainsi développer cette idée géniale et novatrice.

Le fait que les télécommandes MELICONI soient aujourd'hui synonymes de qualité et de fiabilité n'est pas un hasard. En effet, CME a, depuis toujours, investi dans des outils de haute technologie afin de se doter de moyens de productions modernes et performants.

Meliconi, los mandos a distancia

La primera gama completa de mandos a distancia universales de Meliconi capaces de controlar varios aparatos simultáneamente salió al mercado en 2001, y, desde el primer momento, fue fácil prever el éxito que alcanzaría GumBody, pues en tan solo dos años se convirtió en el líder del mercado. El mando a distancia universal de goma antigolpes más vendido en Italia representó, desde la fase de diseño, un cambio importante para la empresa: en efecto, para realizar una idea tan innovadora, Meliconi compró CME, empresa especializada en la fabricación de mandos a distancia sustitutivos desde 1969. La actividad constante de investigación y la puesta a punto meticulosa de la producción han consolidado un éxito cuyas raíces ahondan en la gran tecnología; no en vano los mandos a distancia Meliconi actualmente son sinónimo de calidad, fiabilidad, larga duración y gran facilidad de uso.

Nel cuore della tecnologia...

Anche a distanza di anni, un telecomando Meliconi funziona perfettamente, grazie alla qualità massima dei suoi componenti che ne mantengono inalterato il funzionamento giorno dopo giorno.

...Un guscio per proteggerla

I telecomandi Meliconi offrono una garanzia in più: l'esclusiva protezione in gomma che preserva il telecomando in caso di urti o cadute; un'idea geniale e di grande successo che vanta tantissimi tentativi di imitazione.

Brains…

High-quality components and expert craftsmanship combined in a cutting-edge remote control.

… And muscle

An indestructible rubber casing to protect it.

Au cœur de la technologie...

Après plusieurs années, une télécommande MELICONI fonctionne toujours aussi parfaitement grâce à l'excellente qualité de ses composants.

...Un étui de protection

Les télécommandes MELICONI offrent une garantie supplémentaire grâce à leur protection exclusive en caoutchouc qui préserve la télécommande en cas de chute ou de choc.

En el corazón de la tecnología...

Incluso con el paso de los años, los mandos a distancia Meliconi siguen funcionando perfectamente gracias a la excelente calidad de sus componentes, que mantienen inalterado su funcionamiento día tras día.

...Una funda que lo protege

Los mandos a distancia Meliconi ofrecen una garantía adicional: la exclusiva protección de goma que protege el mando a distancia en caso de golpes o caídas; una idea genial que ha tenido gran éxito y que muchos han intentado imitar.

Una banca dati esclusiva.
Una guida on-line sempre accessibile.

Oggi è possibile programmare e conoscere tutte le potenzialità del telecomando con la stessa velocità con la quale la tecnologia si evolve.

Meliconi ha infatti creato una banca dati unica nel suo genere e costantemente aggiornata, uno strumento di facile fruizione, sempre a disposizione dell'utente sul sito web.

An exclusive data bank…
you can open with a click.

All the help you need right at your fingertips. Log on our website to learn how to programme your remote control and fully exploit its potential.

Une base de données exclusive.
Un moteur de recherche des codes on-line toujours accessible.

Il est aujourd'hui possible de programmer ou de découvrir toutes les fonctionnalités de nos télécommandes en temps réel.

MELICONI a en effet développé une base de données unique et dont la mise à jour est quotidienne. Cet outil simple et pratique est disponible 24 heures sur 24 sur notre site Internet www.meliconi.fr.

Un banco de datos exclusivo.
Una guía on-line accesible en todo momento.

Hoy en día es posible programar y conocer todas las posibilidades que ofrece el mando a distancia con la misma rapidez con la que se desarrolla la tecnología.

Para ello, Meliconi ha creado una base de datos única y exclusiva que se actualiza constantemente: un instrumento fácil de usar que siempre está a disposición del usuario en el sitio web.

Notre professionnalisme à travers notre service d'assistance téléphonique.

La haute technologie s'accompagne d'un service après-vente de qualité qui doit apporter des réponses précises et rapides aux questions que se posent les consommateurs.

Cette assistance est assurée par un personnel spécialisé qui communique aux clients tous les éléments pour programmer et utiliser au mieux toutes les fonctionnalités qu'offrent nos télécommandes.

Tutta la professionalità in un call center.

Grande tecnologia e ricerca di design sono coadiuvati da un efficiente servizio post vendita che offre al consumatore un prodotto all'avanguardia sotto ogni profilo.

La guida on line è supportata da un call center con personale specializzato. Il cliente ha così a disposizione tutti gli strumenti per utilizzare al meglio i telecomandi e per conoscere tutte le novità di un'azienda costantemente impegnata a diversificare la gamma con prodotti perfettamente in linea con le tecnologie più sofisticate.

Your first port of call.

Technology, design and ongoing research and evolution combine with a professional call centre to offer consumers a flawless service.

Toda nuestra profesionalidad en un centro de atención telefónica.

El gran contenido tecnológico y el afán por el diseño están respaldados por un servicio posventa eficaz que ofrece al consumidor un producto de vanguardia desde todos los puntos de vista.

La guía on-line está respaldada por el personal especializado que trabaja en el centro de atención telefónica.

De esta forma, el cliente dispone de todos los instrumentos para disfrutar al máximo de los mandos a distancia y para conocer todas las novedades ofrecidas por la empresa, que se esfuerza constantemente para diversificar su oferta con productos perfectamente en línea con la tecnología más sofisticada.

Antenne e A/V Senders

Aerials and A/V Senders | Antennes et Transmetteur A/V | Antenas y Trasmisor A/V

meliconi®
Audio/Video 2010

Trasmettitore Audio/Video

Il trasmettitore audio video Meliconi trasferisce senza fili qualsiasi segnale audio/video (videoregistratore, DVD, decoder/SAT, videocamera, ecc…) ad un secondo televisore della casa, con alta qualità delle immagini e del suono stereo. Design moderno, dimensioni ridotte per integrarsi con stile in qualsiasi postazione audio/video.

Audio/Video Sender

Meliconi wireless audio/video sender transmits AV signals (VCR, DVD, SAT, etc.) from main TV to a second TV anywhere in the house, with high-quality picture and sound. Contemporary-looking and compact, it fits well in any environment.

Transmetteur Audio/Vidéo

Le transmetteur Meliconi transmet sans fils les signaux Audio/Vidéo (Lecteur DVD, Magnéto-scope, Terminal numérique, Récepteur satellite analogique, Caméscope etc.) vers un deuxième téléviseur, tout en maintenant la qualité des images et du son stéréo. Design moderne et dimensions réduites pour s'intégrer facilement dans tous les équipements.

Transmisor Meliconi

El transmisor Meliconi transfiere sin cables cualquier señal de audio/vídeo (vídeo-grabadora, DVD, decoder/SAT, vídeo-cámara, etc…) a otro televisor presente en el hogar, con una alta calidad de las imágenes y del sonido estéreo. Diseño moderno, dimensiones reducidas para integrarse con estilo en cualquier entorno de audio/video.

AV-100

30 mt INDOORS | 100 mt OUTDOORS | 4 FREQUENCIES | HIGH QUALITY SIGNAL

Trasmettitore Audio/Video senza fili

- Il segnale attraversa muri e soffitti
- Possibilità di passare da un apparecchio ad un altro tramite telecomando anche dal TV secondario
- 4 frequenze di trasmissione selezionabili
- Alta qualità delle immagini e del suono stereo
- Dotazione completa, non sono necessari cavi aggiuntivi. Subito pronto all'uso
- Funziona con tutte le marche
- Call Center

Transmetteur d'images Audio/Vidéo sans fils

- Transmet tous les signaux Audio/Vidéo d'une pièce à l'autre à travers les murs, les cloisons et les plafonds
- Permet aussi de contrôler avec la télécommande d'origine, l'appareil relié à l'émetteur au niveau du téléviseur principal
- Dispose de 4 fréquences de transmission pour éviter les interférences avec le voisinage
- Image et son stéréo de haute qualité
- Ensemble complet, prêt à l'installation (livré avec câble). Fonctionne avec toutes les marques d'appareils
- Assistance téléphonique consommateurs

Wireless Audio/Video sender

- It transfers Audio/Video signals through walls and ceilings
- You may switch to different video sources even from your second television using the remote control
- 4 selectable frequencies to avoid interference
- Top quality picture and stereo sound
- Complete with SCART cables, ready for use
- Works with all brands

Transmisor de señales de audio/vídeo inalámbrico

- La señal atraviesa paredes y techos
- Posibilidad de pasar de un aparato a otro mediante el mando a distancia, incluso desde el televisor secundario
- 4 frecuencias de transmisión seleccionables
- Alta calidad de las imágenes y del sonido estéreo
- Dotación completa, no requiere cables adicionales. Listo para el uso inmediato
- Funciona con todas las marcas

Antenne Meliconi

Le antenne Meliconi permettono la ricezione del segnale TV analogico e del digitale terrestre. L'amplificazione regolabile garantisce un ampio raggio di ricezione e un segnale ottimale, e speciali filtri riducono al minimo i disturbi garantendo un'altissima qualità del suono e delle immagini.
Grazie all'elegante design si abbinano perfettamente ai moderni televisori e componenti audio/video.

Meliconi Aerials

Meliconi aerials can receive both analogue TV and DVB-T signals. Adjustable amplification for a wide reception range and excellent signal. With special filters to reduce interference to a minimum, they guarantee a very high standard of sound and image.
Their elegant design ensures they fit in with the look of modern televisions and audio-video components.

Antennes Meliconi

Les antennes MELICONI permettent de recevoir les signaux TV analogiques et numériques terrestres. Leur amplification réglable assure un large rayon de réception et un signal optimal. Pourvues de filtres spéciaux réduisant les interférences, elles assurent une excellente qualité de son et d'image.
Leur design élégant s'accorde parfaitement aux téléviseurs modernes.

Antenas Meliconi

Las antenas de Meliconi permiten recibir las señales de la televisión analógica y de la televisión digital terrestre. La amplificación regulable garantiza un radio de recepción amplio y una señal óptima. Están dotadas de unos filtros especiales que reducen al mínimo las interferencias y garantizan una altísima calidad de sonido y de imagen.
Gracias a su elegante diseño, se combinan perfectamente con los televisores y los componentes de audio y vídeo modernos.

AM-38

38dB | UHF VHF FM | DVB-T TNT | HIGH QUALITY SIGNAL | 90° | 12 V | 220/240 Volts | 2 Years Warranty

Antenna TV amplificata per interni

- Compatibile con il segnale digitale terrestre
- Dotata di speciali filtri che garantiscono un'altissima qualità del suono e delle immagini
- Compatibile con i segnali televisivi ad Alta Definizione

- Can be powered directly via the decoder or via the 220/240 adaptor provided

Antenne numérique d'intérieur amplifiée

- Se présente sous la forme d'un élégant porte photo, un objet de décoration s'intégrant parfaitement à tous les intérieurs
- Réception optimale des signaux télévisés TNT et radio DAB à travers un décodeur ou un téléviseur avec tuner TNT intégré
- Reçoit également les signaux analogiques traditionnels sur les fréquences couvertes, si reliée directement à la TV
- Compatible avec les signaux télévisés terrestres HD
- Alimentation par le décodeur TNT si adapté ou avec l'adaptateur secteur fourni
- Assistance téléphonique consommateurs

Antena digital amplificada para interiores

- Tiene el aspecto de un elegante marco para fotografías, un objeto decorativo que se integra perfectamente en todos los ambientes
- Recepción óptima de las señales de televisión DVB-T y de radiodifusión DAB mediante un descodificador
- Recibe las señales analógicas tradicionales en las frecuencias ofrecidas, cuando se conecta directamente al televisor
- Es compatible con las señales de televisión terrestre de alta definición
- Filtros especiales que reducen al mínimo las interferencias de las señales no deseadas
- Alimentación mediante descodificador donde esté predispuesta, o bien mediante el alimentador de 220/240 V incluido

AD Professional

47dB | DVB-T DAB | HD COMPATIBLE | ANALOG COMPATIBLE | NOISE FIGURE < 1 dB | 220/240 Volts | 2 Years Warranty

Antenna Digitale amplificata per interni

- Ricezione ottimale dei segnali della TV digitale terrestre (DVB-T) e dei segnali radio digitali (DAB) tramite decoder
- Riceve anche i segnali analogici tradizionali sulle frequenze coperte, se collegata direttamente alla TV
- Compatibile con i segnali televisivi terrestri ad Alta Definizione
- Regolazione dell'amplificazione fino a 47 dB
- Il rumore di funzionamento dell'amplificatore non interferisce con i segnali esterni (figura di rumore < 1 dB)
- Filtri speciali riducono al minimo le interferenze da segnali indesiderati
- Alimentazione tramite decoder ove predisposto oppure tramite alimentatore 220/240 Volts incluso
- Call Center

Amplified indoor digital aerial

- Optimal reception of digital terrestrial television signals (DVB-T) and digital radio signals (DAB) using a decoder
- It also receives traditional analogic signals on the covered frequencies, if connected directly to the TV
- Compatible with high-definition digital terrestrial signals
- Amplification adjustment up to 47 dB
- The noise of the amplifier working does not interfere with the external signals (noise figure < 1 dB)
- Special filters reduce to a minimum interferences of unwanted signals
- Power supply by means of a decoder, where applicable, or the 220/240 V power supply provided

Antenne numérique d'intérieur amplifiée

- Réception optimale des signaux de la télévision terrestre numérique (DVB-T) et des signaux de la radio numérique (DAB) par décodeur
- Reçoit également les signaux analogiques traditionnels sur les fréquences couvertes en cas de connexion directe à la télévision
- Compatible avec les signaux de la télévision terrestre Haute Définition
- Amplification réglable jusqu'à 47 dB
- Le bruit de fonctionnement de l'amplificateur n'interfère pas avec les signaux externes (niveau de bruit < 1 dB)
- Des filtres spéciaux réduisent au minimum les interférences provenant de signaux indésirables
- Alimentation par décodeur lorsque ce dernier est installé ou par bloc d'alimentation 220/240 V inclus
- Assistance téléphonique consommateurs

Antena digital amplificada para interiores

- Recepción excelente de las señales de la TV digital terrestre (DVB-T) y de las señales de radio digitales (DAB) por medio del decodificador
- Recibe también las señales analógicas tradicionales en las frecuencias cubiertas, si está conectada directamente a la TV
- Compatible con las señales televisivas terrestres de Alta definición
- Regulación de la amplificación hasta 47 dB
- El ruido de funcionamiento del amplificador no interfiere con las señales externas (figura de ruido < 1 dB)
- Filtros especiales reducen al mínimo las interferencias de señales indeseadas
- Alimentación por medio de un decodificador donde está predispuesto o mediante alimentador 220/240 V incluido

Linea Flat Vision Meliconi

Flat Vision Meliconi una linea di supporti per TV LCD e Plasma studiata nei minimi dettagli per offrire massima funzionalità con una speciale attenzione all'estetica. L'esclusivo sistema CABLESS Meliconi, che permette di nasconde-re i cavi di collegamento tra i vari apparecchi, ne esalta ancora di più il raffi-nato design. I piani in vetro temperato garantiscono la massima sicurezza.

Meliconi Flat Vision Line

Flat Vision by Meliconi: the ultimate synthesis of style and function in a com-plete line of flat screen stands. The exclusive CABLESS system conceals all cables and wires, highlighting the refined design.

The toughened glass shelves guarantee maximum safety.

Ligne Flat Vision Meliconi

Flat Vision MELICONI est une gamme de meubles techniques esthétique, in-novante et fonctionnelle pour téléviseurs LCD et plasma. Le système exclusif CABLESS MELICONI sert à cacher les câbles reliant les différents appareils et exalte encore plus le design raffiné des supports. Les plateaux en verre trempé garantissent une sécurité maximale.

Línea Flat Vision Meliconi

Flat Vision Meliconi es una línea de soportes para televisores LCD y Plasma estu-diada en los más mínimos detalles para brindar la máxima funcionalidad, con una especial atención al aspecto estético. El sistema exclusivo CABLESS Meliconi, que permite ocultar los cables que conectan los varios aparatos, realza aún más su ele-gante diseño. Las superficies de vidrio templado aseguran la máxima seguridad.

I supporti Meliconi sono testati e certificati dal TÜV, uno dei principali istituti al mondo che si occupa di testare, valutare e certificare prodotti. Fondato nel 1870 in Germania, TÜV oggi impiega oltre 9000 addetti in 500 strutture distribuite in 60 paesi, ed è l'unico istituto europeo a potere testare e validare prodotti destinati al mercato degli Stati Uniti e del Canada.

L'apposizione del Marchio TÜV attesta che i nostri prodotti sono stati sottoposti con esito positivo a severissimi test che ne hanno analizzato la qualità, la sicurezza e la chiarezza delle istruzioni di montaggio. Inoltre, per garantire che tali requisiti vengano mantenuti nel tempo, TÜV provvede periodicamente ad effettuare controlli di verifica su tutti i prodotti certificati.

Meliconi supports have been tested and approved by TÜV, one of the leading testing and certifying institutions in the world. Founded in Germany in 1870, TÜV currently employs over 9,000 staff in 500 labs across 60 countries – and it is the only European institute that can test and certify products destined for the U.S. and Canadian markets.

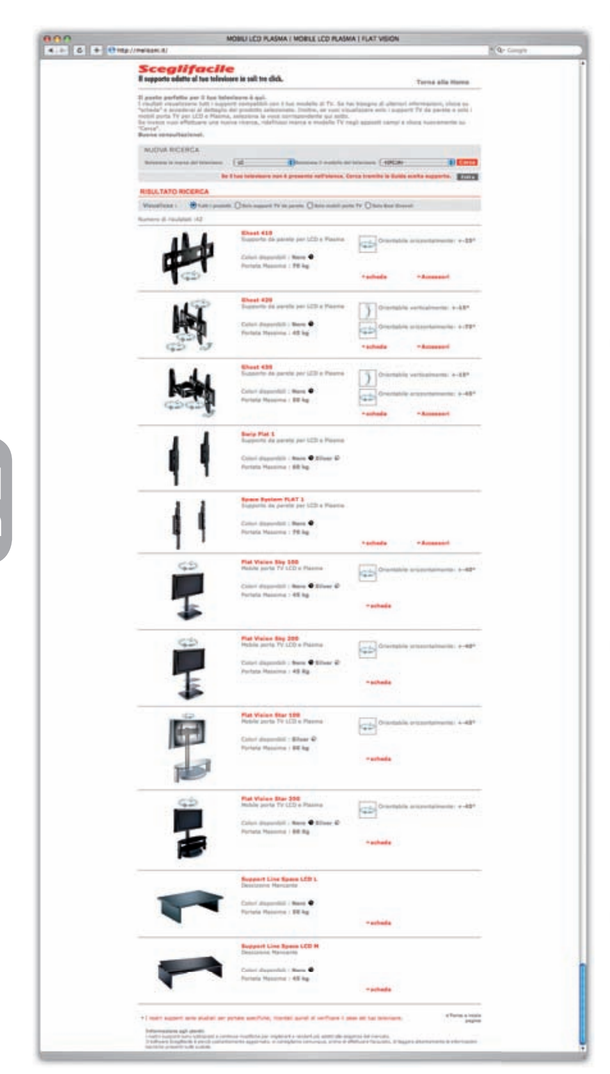

The TÜV mark attests that our products have successfully passed the strictest tests for quality, safety and instruction clarity. Furthermore, to ensure the continued adherence to these standards over time, TÜV carries out periodical tests on all certified products.

Les supports et meubles meliconi ont fait l'objet de contrôles drastiques pour être homologués par le TÜV, principal organisme de certification au monde, qui s'applique à tester, évaluer et vérifier les produits destinés au grand public. Fondée en 1870 en Allemagne, TÜV emploie 9 000 personnes, avec 500 bureaux répartis dans 60 pays. Il est le seul bureau de contrôle européen accrédité pour les marchés américains et canadiens.

La présence du logo TÜV apporte la garantie que nos produits ont répondu positivement à de nombreux tests de qualité, de sécurité et d'informations quant à leur utilisation et leur mise en œuvre. De plus, afin de s'assurer que l'ensemble des critères soient maintenus dans le temps, TÜV effectue régulièrement des contrôles inopinés sur tous les produits certifiés.

Los soportes y muebles meliconi han sido el objeto de controles exhaustivos para su homologación por la TÜV, principal organismo de certificación mundial, que se encarga de probar, evaluar y verificar los productos destinados al público mayoritario. Fundado en Alemania en 1870, TÜV consta de 9000 empleados, con 500 delegaciones repartidas en 60 países. Es la única empresa de control europeo acreditada por el mercado americano y canadiense.

La presencia del logo TÜV es la garantía de que nuestros productos han respondido positivamente a numerosos test de calidad, seguridad e información en cuanto a su utilización y puesta en marcha. Además, con el fin de asegurar que estos criterios continuarán en vigencia en un futuro, TÜV efectúa regularmente controles exhaustivos sobre todos sus productos certificados.

Sul sito www.meliconi.com, grazie al software SCEGLIFACILE, bastano tre click per trovare il supporto ideale per la vostra TV LCD o Plasma, confrontando le caratteristiche principali per una facile scelta. Comodamente da casa, basta accedere alle pagine dedicate ai supporti LCD e Plasma e selezionare il link al programma. Inserendo marca e modello del TV, potrete consultare l'ampia gamma di supporti Meliconi da parete o da terra e individuare facilmente quello che meglio soddisfa le vostre esigenze. Con SCEGLIFACILE Meliconi scegliere bene è più semplice e… decisamente più comodo.

Easy Choice

Ghost™

Meliconi Ghost: grande tecnologia, minima percezione.

Benvenuti nell'era di GHOST, un progetto innovativo, concepito per fondere design e funzionalità e per diventare la migliore soluzione tecnica ed estetica per l'arredo degli spazi riservati all'audio video. Design raffinato e materiali ricercati rendono l'intera linea unica per forme e funzioni. Ghost è stato concepito per far scomparire i fili e tutto ciò che è visibile, ma non è gradito alla vista.
Innovazione, qualità, studio estetico: tutto questo è Ghost una linea in cui la cura che Meliconi dedica ad ogni minimo dettaglio non passa inosservata.

Meliconi Ghost. High technology, minimum presence.

Welcome to the age of GHOST, an innovative project conceived to combine design and function and to provide the best technical and most attractive solution for audio-visual support furnishings. An elegant design and prestigious materials make the entire line unique in terms of form and function.
Ghost is designed to make wires disappear as well as all other objects which are less than pleasing to the eye. Innovation, quality, design: Ghost is all this, a line where Meliconi's attention to detail cannot be missed.

Meliconi Ghost. Grande technologie, perception minimum.

Bienvenue dans l'ère de GHOST, un projet innovant, conçu pour unir design et fonctionnalité et devenir la meilleure solution technique et esthétique pour l'ameublement des espaces réservés à l'audiovisuel. Grâce à un design raffiné et à des matériaux recherchés, cette gamme est unique au niveau des formes et des fonctions. Ghost a été conçu pour faire disparaître les fils et tout ce qui est visible, mais qui n'est pas beau esthétiquement. Innovation, qualité, étude esthétique : avec Ghost, le soin que Meliconi réserve aux moindres détails ne passe pas inobservé.

Meliconi Ghost. Gran tecnología, mínima percepción.

Bienvenidos a la era de GHOST, un proyecto innovador en el que el diseño se funde con la funcionalidad, concebido para ser la mejor solución técnica y estética de decoración de los espacios reservados a audio y vídeo. Diseño elegante y materiales exclusivos hacen de Ghost una línea única en sus formas y funciones. Ghost ha sido pensado para hacer desaparecer los cables y todo lo que es visible pero no agradable a la vista. Innovación, calidad, estudio estético: todo esto es Ghost, una línea en la que el cuidado que Meliconi dedica a cada mínimo detalle no pasa inobservado.

STILE | Slim

Linea STILE

La nuova linea STILE, dal design accattivante, si compone di 4 modelli "super slim" che hanno la caratteristica di essere sottilissimi, adattandosi perfettamente alle TV a LED. Meliconi trasforma la vostra TV in un quadro: moderna, elegante, completamente aderente alla parete.

STILE Line

STILE, the new attractive Meliconi's wall brackets line, consists of 4 super slim models, specially designed to perfectly fit LED screens. These new wall brackets transform your TV into a framework; modern, elegant and fully adhering to the wall.

Ligne STILE

Meliconi présente «STILE», sa nouvelle gamme de supports muraux : 4 modèles ultra slim idéalement conçus pour les TV à LED, se mariant harmonieusement avec le décor de votre intérieur en alliant élégance et discrétion. Ces supports font de votre TV un véritable tableau : modernes, design, ils se confondent avec votre mur.

Línea STILE

La nueva linea de soportes STILE, consta de cuatro modelos "súper slim" de diseño atractivo, que tienen la característica de ser delgados adaptandose perfectamente al LED TV. Meliconi convierte su televisor en una pintura: moderna, elegante, totalmente adherida a la pared.

SYSTEM

Linea Space System

I supporti a parete UNIVERSALI della linea Space System LCD e FLAT Meliconi risolvono qualsiasi esigenza nel supportare TV al plasma e LCD. In versione fissa o inclinabile, si possono abbinare ad altri accessori della linea Space System creando sistemi componibili per supportare videoregistratore, DVD e decoder. L'esclusivo sistema CABLESS permette inoltre di nascondere i tasselli e i fili che collegano i vari apparecchi.

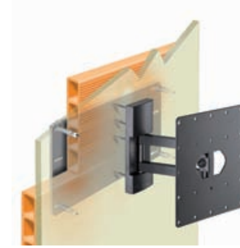

Space System Line

Meliconi's UNIVERSAL Space System LCD and FLAT wall brackets are designed to meet any Plasma or LCD screen fastening requirement. Fixed or tilting, they can be combined with other optional Space System accessories to create modular systems supporting VCRs, DVDs, SAT receivers... The exclusive CABLESS system effectively conceals screws and connecting wires.

Ligne Space System

Les supports muraux UNIVERSELS de la gamme Space System pour TV LCD et Plasma MELICONI, répondent à toutes les exigences en matière de sécurité. Existent en version fixe ou inclinable, avec ou sans rotation. Grâce à ses éléments modulaires, vous pouvez les associer aux autres supports pour périphériques et créer ainsi un ensemble Audio/Vidéo (Magnétoscope, Lecteur DVD, Décodeur SAT...) mural esthétique et design. Le système exclusif CABLESS permet de protéger et de cacher les câbles de liaison ainsi que les vis de fixation.

Línea Space System

Los soportes murales UNIVERSALES de la gama Space System LCD y FLAT TV Meliconi, son productos que responden a todas las exigencias. Capaces de soportar con toda seguridad los televisores de PLASMA y LCD. Disponibles como soportes fijos o inclinables, con o sin rotación. Gracias a sus elementos modulares, se pueden colocar con otros soportes para VIDEO y DVD de la gama Space System y crear un conjunto AUDIO/VIDEO de pared estético. El sistema exclusivo CABLESS permite proteger y esconder los cables de conexión, así como los tornillos de fijación.

Space System® TV

Linea Space System TV

La linea SPACE SYSTEM TV, componibile e modulare, risolve qualsiasi esigenza nel supportare TV, videoregistratore, DVD, decoder, HI-FI, coprendo oltre ai necessari cavi di collegamento, anche i tasselli. SPACE SYSTEM MELICONI, sostituisce con notevoli vantaggi economici e di spazio, il tradizionale mobile TV, integrandosi con stile in qualsiasi ambiente.

Disponibile nei colori NERO e SILVER.

Space System Line TV

SPACE SYSTEM LINE TV, the add-on, modular system designed to host your TV-set, HiFi and TV-related equipment, concealing wall dowels and connecting cables. MELICONI's SPACE SYSTEM LINE provides a space and money-saving alternative to traditional TV/HiFi cabinets, while stylishly adapting itself to all interiors.

Available in BLACK - SILVER.

Ligne Space System TV

La gamme SPACE SYSTEM pour TV, apporte une solution idéale aux problèmes d'installation des TV, magnétoscope, DVD, Décodeur SATELITE, CHAINE HI-FI et micro-onde. Les caches dissimulent les câbles de connexion et les vis de fixation. SPACE SYSTEM MELICONI remplace avantageusement le meuble TV traditionnel, assure un gain de place et s'harmonise parfaitement à toutes ambiances. Disponible en NOIR et SILVER.

Línea Space System TV

La línea SPACE SYSTEM TV, componible y modular, soluciona cualquier exigencia de soporte de TV, vídeo grabadora, DVD, decoder, HI-FI ocultando, además de los cables de conexión, los tacos. SPACE SYSTEM MELICONI sustituye con muchas ventajas, tanto económicas como de espacio, el tradicional mueble TV, integrándose con estilo en cualquier ambiente. Disponible en los colores NEGRO - PLATINO.

Linea FreeStyle

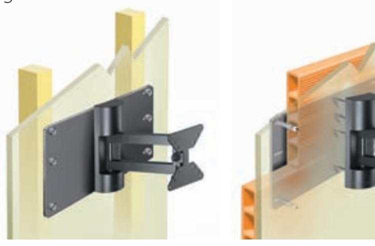

I supporti a parete UNIVERSALI della linea FreeStyle LCD e FLAT Meliconi risolvono qualsiasi esigenza nel supportare TV al plasma e LCD. In versione fissa o inclinabile, si possono abbinare ad altri accessori della linea FreeStyle creando sistemi componibili per supportare videoregistratore, DVD e decoder. L'esclusivo sistema CABLESS permette inoltre di nascondere i tasselli e i fili che collegano i vari apparecchi.

FreeStyle Line

Meliconi's UNIVERSAL FreeStyle LCD and FLAT wall brackets are designed to meet any Plasma or LCD screen fastening requirement. Fixed or tilting, they can be combined with other optional FreeStyle accessories to create modular systems supporting VCRs, DVDs, SAT receivers... The exclusive CABLESS system effectively conceals screws and connecting wires.

Ligne FreeStyle

Les supports muraux UNIVERSELS de la gamme FreeStyle pour TV LCD et Plasma MELICONI, répondent à toutes les exigences en matière de sécurité. Existent en version fixe ou inclinable, avec ou sans rotation. Grâce à ses éléments modulaires, vous pouvez les associer aux autres supports pour périphériques et créer ainsi un ensemble Audio/Vidéo (Magnétoscope, Lecteur DVD, Décodeur SAT...) mural esthétique et design. Le système exclusif CABLESS permet de protéger et de cacher les câbles de liaison ainsi que les vis de fixation.

Línea FreeStyle

Los soportes murales UNIVERSALES de la gama FreeStyle LCD y FLAT TV Meliconi, son productos que responden a todas las exigencias. Capaces de soportar con toda seguridad los televisores de PLASMA y LCD. Disponibles como soportes fijos o inclinables, con o sin rotación. Gracias a sus elementos modulares, se pueden colocar con otros soportes para VIDEO y DVD de la gama FreeStyle y crear un conjunto AUDIO/VIDEO de pared estético. El sistema exclusivo CABLESS permite proteger y esconder los cables de conexión, así como los tornillos de fijación.

Bases for TV/Video - Plateaux TV/Video - Bases para TV/Vídeo

Support Line

Support Line Meliconi

La nuova linea Rotobridge, specifica per TV LCD e Plasma, è composta da una base in acciaio per accogliere le periferiche audio video e da un elegante piano in vetro temperato ruotabile a 360° che permette di orientare la TV in qualsiasi direzione. I modelli disponibili, con piano in vetro ovale o rettangolare, sono adatti a TV di tutte le dimensioni.

The Meliconi Support Line

The Rotobridge line, specifically designed for LCD and Plasma televisions, consists of a steel base to house audio/DVD/video equipment and an elegant tempered glass rotary surface enabling the TV to be rotated through 360°.
The available models, with either an oval or rectangular surface, are suitable for televisions of all sizes.

Support Line Meliconi

La nouvelle gamme Rotobridge, spécialement conçue pour les téléviseurs LCD et au plasma, comprend une base en acier sur laquelle poser les périphériques audiovisuels et un élégant plateau en verre trempé pivotant à 360° qui permet d'orienter le poste dans tous les sens. Les modèles disponibles, avec plateau en verre ovale ou rectangulaire, conviennent à tous les téléviseurs, quelles que soient leurs dimensions.

Support Line Meliconi

La nueva línea Rotobridge, específica para TV LCD y Plasma, está compuesta por una base de acero para acoger las periféricas audio vídeo y por una elegante superficie de vidrio templado giratoria 360°, que permite orientar la TV en cualquier dirección. Il Guscio Meliconi

Il guscio è un salvatelecomando in morbida gomma che protegge i telecomandi da urti e cadute. Disponibile in tre versioni:

SU MISURA: numerosi modelli realizzati per specifici telecomandi.

UNIVERSAL: 6 modelli adattabili ad un gran numero di telecomandi.

ESTENSIBILE: adattabile alla maggior parte dei telecomandi di forma e dimensioni standard.

I gusci SU MISURA e UNIVERSAL, dotati di STRIP, sono facilmente applicabili ad ogni superficie.

The Meliconi Bodyguard

An impact-proof remote control cover made in soft rubber. Available in three versions:

CUSTOM-FIT: several models tailor-made for specific remote controls.

UNIVERSAL: 6 models, adaptable to most remote controls.

EXTENDIBLE: Suitable for most standard-sized-and-shaped remote controls.

The first two versions, fitted with STRIP, can be easily fixed to any surface.

La Télécoque Meliconi

La Télécoque est une protection en caoutchouc souple qui protège les télécommandes contre les chutes et les chocs. Disponible en trois versions :

SUR MESURE : plusieurs modèles parfaitement adaptés aux télécommandes d'origine.

UNIVERSAL : 6 modèles adaptables à un grand nombre de télécommandes.

EXTENSIBLE : adaptable à la plupart des télécommandes de forme et de dimensions standards.

Les Télécoques SUR MESURE et UNIVERSAL sont munies de STRIP (scratch) qui s'applique facilement sur toutes les surfaces.

Guscio Meliconi

Guscio, la funda de protección de goma blanda, protege el mando a distancia de golpes y caídas. Disponible en tres versiones:

A MEDIDA: numerosos modelos realizados para mandos a distancia específicos.

UNIVERSAL: 6 modelos que se adaptan a un gran número de mandos a distancia.

EXTENSIBLE: se adapta a la mayoría de los mandos a distancia de forma y dimensiones estándares. Las fundas A MEDIDA y UNIVERSAL, provistas de STRIP, se aplican fácilmente a cualquier superficie.
